

Indoor Lighting

Overview

The Darcey downlighter is an efficient and effective LED downlighter incorporating the latest in led technology.

Three colour temperatures are available and variants including dimmable and various emergency options are also available.

An anti-glare baffle is fitted as standard reducing glare and UGR<19 is achieved making the downlighter suitable for office/VDU circulation areas.

The stylish adjustable design makes it suitable for various applications including hotel rooms and most commercial and domestic applications.
